SUMMARY

Skilled MERN Stack Developer with extensive experience in building robust and scalable web applications using MongoDB, Express, React, and Node.js.

SKILLS

- **Languages:** JavaScript, c++, python, HTML, CSS
- **Back-End:** Node.js, Express.js, Next.js
- **APIs:** RESTful APIs, Microservices
- **Version Control:** Git, GitHub
- **Front-End:** React, Redux, Bootstrap
- **Databases:** MongoDB, Mongoose
- **Cloud Platforms:** AWS, Azure
- **Other Tools:** Docker, Postman

INTERNSHIP

Future Ready Talent Internship

AICTE Internship organization & Power by Microsoft
Project Based on Azure Chatbot Integration in Website

06/2023–08/2023

Virtually

[Project Link](#) | [certificate](#)

MERN stack development Internship & Training

Brain Mentors Pvt. Ltd.
Full stack Contact Book Application using MERN

07/2023–08/2023

In-House

PROJECT

YouTube Backend

[PlayTube](#)

- Utilized Cloudinary for efficient media storage and delivery.
- Implemented file uploads with Multer, ensuring secure and scalable handling of user-generated content.
- Developed pagination and pipeline features to enhance user experience and data processing.
- Built RESTful APIs for managing video data, user interactions, and analytics.

Automation Deployment using AWS

[Automation deployment](#)

- Developed a reverse proxy in Node.js to manage routing and load balancing.
- Automated deployment processes using AWS services including S3, ECS, and ECR.
- Configured and managed Docker containers for scalable deployment.
- Implemented CI/CD pipelines to streamline deployment and integration.
- Ensured application reliability through comprehensive monitoring and logging using Redis.

Anonymous Feedback System using Next.js

[Feedback.co](#)

- Developed an anonymous feedback system using Next.js to ensure privacy and anonymity for users.
- Implemented server-side rendering and static site generation to improve performance and SEO.
- Utilized Node.js and Express.js for backend services to handle feedback submission and storage.
- Integrated MongoDB for secure and efficient data storage.

- Designed a responsive and user-friendly UI using React and shadcn.

EDUCATION

Bachelors of Technology (B. Tech) in computer science (IIoT), 2021 – 2025 from VIPS-TC GSIPU university, Delhi, India.
